

BAZAN GROUP
GADIV PETROCHEMICAL
INDUSTRIES LTD

About Us

Gadiv Petrochemical Industries Ltd. is a global producer of petrochemical products mainly Aromatics, Aliphatic Solvents and intermediates for a wide variety of applications for the chemical, agrochemistry, plastics, polyesters, edible oil extractions, paints and pharmaceutical industries.

Gadiv also processes a number of streams used as octane boosters.

Gadiv is a subsidiary of Bazan Oil Refineries Ltd. and is located in the same Industrial complex together with additional sister companies, Olefins producer (Carmel Olefins Ltd.) and Base oil and waxes (Haifa Basic Oils Ltd. – HBO), which allows **Gadiv** high availability to the raw materials and streams required for the production of its solvents and specialties.

In Our DNA

The marketplace demands consistently high quality products delivered on time at a competitive price.

At **Gadiv**, it is in our DNA to constantly:

- Keep safety more than just a priority – but as a core value and an integral part of our culture that applies to every aspect of our operations.
- Recommit to protecting the environment with every step we make.
- Incorporate the latest developments and production innovations technology
- Be attentive to our customer's needs
- Improve supply and delivery time to market.
- Provide high quality products with high consistency
- Leverage the development, streams and production resources of the Bazan Group.

Flexibility & Experience

Since 1974, **Gadiv** has grown to produce more than 600,000 MT/y of aromatic, aliphatic solvents and intermediates for the global marketplace. With highly experienced engineers, chemists, lab technicians and 24/7 customer support personnel located in the Bazan oil refinery complex, **Gadiv** is uniquely positioned to provide specialty high quality products various shipment solutions and quick response to urgent supply requests. We have developed close relationships with our customers which grew due to our doing the utmost to take into consideration all their needs.

Our Customers

From production of adhesives and paint manufacturers to producers of laboratory chemicals and pharmaceuticals, we can proudly say that we are known for the consistency of quality, our ability to meet tight supply deadlines and provide creative solutions for our customer's innovations together with our technologists. **Gadiv's** experienced team works closely with our customers to meet their needs and is able to ship **Gadiv's** range of products in bulk tanker ships, ISO-containers or drums.

Time to Market

Two factors determine a quick Time To Market (TTM): Service efficiency and logistics. As part of the Bazan group, Gadiv has the experienced ability and resources to efficiently transfer the customer's requests into high quality production flows. Regarding logistics, Gadiv is strategically located near a major Mediterranean shipping port, which gives the flexibility to supply goods into Mediterranean ports as well as Asia, Europe, South, Central and North America.
